Deployed Projects

Search Google Books

Live Site: <https://limitless-castle-72174.herokuapp.com/> *Github:* <https://github.com/ccollins1544/search-google-books/>

This app searches books via the google books API and allows users to save books.

Created as a solo project using MERN Stack (MongoDB, ExpressJS, React, NodeJS)

Clicky Game

Live Site: <https://ccollins1544.github.io/clickygame/> *Github:* <https://github.com/ccollins1544/clickygame/>

Memorization game. The idea is to click any image to increase your score but don't click the same image twice or you lose. Created as a solo project using create-react-app, JavaScript, and Express JS.

News Scraper

Live Site: <https://sheltered-retreat-71804.herokuapp.com/> *Github:* <https://github.com/ccollins1544/news-scraper/>

Scraps the latest news from KSL.com and allows users to leave comments on articles. Created as a solo project using MERN Stack (MongoDB, ExpressJS, React, NodeJS).

Education

University of Utah – Graduated February 2020

Coding Boot Camp - Full Stack Flex Program

- The Coding Boot Camp is a part-time, 24-week Full Stack Flex course that gives you the knowledge and skills to build dynamic end-to-end web applications and become a full stack web developer.

Employment History

Orbcomm

Data Services

October 2019 – July 2020

Working in data analytics and generating reports from MySQL/PHP.

- Writing PHP/MySQL scripts to create excel reports which were emailed out to managers via cronjobs.
- Maintained all scripts in gitlab repository.

Desert Tech

Web Developer

September 2015 – September 2019

Working in the area of resource management as IT Support, Server Administration, and Web Development. Some responsibilities and projects included but not limited to:

- Technical Support - all general IT support issues.
- Hardware Manager - all repairs and building of employee computers.
- Software Manager - all maintenance, updating, and installation of company software.

- Server Administrator (IT Tester) - Proxmox, Active Directory, SAMBA, FreeNAS, WinServer2012R2
- Network Support - PfSense Firewall and VPN network configurations.
- IT Document Control - We use Promapps website.
- Develop and Maintain Website - HTML/CSS, PHP, jQuery, MySQL, CPANEL, WHM, GitHub.
- WordPress Plugin Development - I would rate myself as intermediate-level competency. I can successfully build WP Plugins using AJAX, jquery, and PHP. I can show you the plugins I have made upon request.
- Maintain Windows Virtual Servers - managing an active directory of roughly 10users and setting up remote access (RDP and sometimes VPN connection).

BrainSpin

Web Developer

January 2015 – September 2015

Developing websites using php, css, html, jquery, and wordpress. Migrating Websites and Troubleshooting Websites. Helping customers with cPanel, sentora, and general IT support.

AAA Security

IT Support

May 2010 – May 2015

Server Administrator and IT Support for company servers.
